# Job Description

## Production Support – Chemical Operations

**Employment:** Full-Time
**Pay:** $17.00 per hour
**Location:** Dayton, OH 45417
**Work arrangement:** On-Site
**Shift / schedule:** 1st Shift - 7:00 AM - 3:00 PM

### About Plating Technology

Plating Technology, Inc. is a family-owned metal finishing company that has served the automotive and manufacturing industries since 1952. We specialize in high-volume electroplating and are committed to delivering quality products through safe, efficient, and reliable manufacturing processes.

We are looking for a dependable, motivated individual to join our Chemical Operations team.

### Position Overview

As a Chemical Operations Production Support Technician, you will play an important role in keeping our production lines operating safely and efficiently.

This is an active, hands-on position that involves maintaining chemical solutions, making chemical additions, monitoring tank levels, changing filters, and supporting the daily operation of our plating processes.

We are looking for someone who takes pride in doing things correctly, pays close attention to detail, and can work independently without constant supervision.

Previous experience in chemical operations or manufacturing is helpful, but we are willing to train the right candidate.

### What You'll Do

- Make accurate chemical additions to production tanks according to established procedures and instructions.
- Monitor and maintain proper tank levels to support consistent production operations.
- Replace filters, clean tanks, and perform routine chemical process maintenance.
- Maintain detailed and accurate records of chemical additions, maintenance activities, and process conditions.
- Identify and report unusual conditions, equipment concerns, or potential quality issues.
- Follow all chemical handling, safety, environmental, and quality procedures.
- Properly use required personal protective equipment (PPE).
- Maintain a clean, organized, and safe work area.
- Communicate effectively with production supervisors, laboratory personnel, and coworkers.
- Take initiative to complete assigned tasks and help prevent production interruptions.

### What We're Looking For

Required Qualifications

- High school diploma or equivalent.
- Excellent attendance, punctuality, and dependability.
- Strong attention to detail and ability to follow written instructions accurately.
- Ability to work independently, manage assigned responsibilities, and stay on task.

- Basic math, reading, and recordkeeping skills.
- Willingness to follow strict chemical handling and safety procedures.
- Ability to communicate effectively with coworkers and supervisors.

## Preferred Qualifications

- Previous manufacturing, production, or industrial maintenance experience.
- Experience handling chemicals or working with industrial process equipment.
- Forklift operating experience.
- Familiarity with basic measurement or analysis equipment.

## Physical Requirements & Working Conditions

This is a physically active position in an industrial manufacturing environment.

- Work in a non-climate-controlled production facility.
- Stand and walk for extended periods, typically 8–10 hours per shift.
- Regularly bend, reach, climb ladders, and move throughout the production facility.
- Lift and handle materials weighing up to 100 pounds, using appropriate lifting methods and assistance where required.
- Perform repetitive physical tasks throughout the workday.
- Work safely around industrial chemicals, equipment, and production processes.
- Wear company-provided PPE, which may include chemical-resistant boots, gloves, aprons, goggles, and face shields.

## Compensation & Benefits

Starting Pay: $17.00 per hour

We offer a comprehensive benefits package, including:

- Health, dental, and vision insurance
- 401(k) retirement plan with company matching
- Health Savings Account (HSA)
- Life insurance
- Paid time off
- Employee referral program

## Why Join Our Team?

At Plating Technology, your work directly supports the quality and reliability of the products we manufacture. You'll be part of an established, family-owned business where attention to detail, safety, and a strong work ethic make a difference every day.

If you are dependable, enjoy hands-on work, and take pride in doing a job correctly, we encourage you to apply.

## Equal Opportunity Employer

Plating Technology, Inc. is an Equal Opportunity Employer.
